

Automatic Straight-Through Qualification Process for Selected WSQ Qualifications (with effect from 5 January 2015)

05 Jan 2015

1. With effect from 5 January 2015, the 137 WSQ qualifications in Table A below will not require ATOs to send email requests to WDA for generation of e-Certificates. For these 137 WSQ qualifications (including both full qualification courses as well as modular courses), ATOs only need to upload the results for the Competency Standard(s) to SkillsConnect, and the e-Cert system will automatically check if any of the 137 WSQ qualifications have been achieved and generate the corresponding WSQ qualification and transcript image files.

2. ATOs who deliver the full qualification course or the final module before the trainee achieves the full qualification will receive an email notification for any of the 137 WSQ qualifications automatically generated by the e-Cert system. Per the implementation of the e-Cert system, please be reminded that ATOs must print the WSQ qualification and transcript from the e-Cert system for the trainee, without the trainee having to request for them.

3. For WSQ qualifications not listed in the above table, ATOs who deliver the full qualification course or the final module before the trainee achieves the full qualification must continue to submit email requests to WDA to generate the e-Certificates for the WSQ qualifications, in addition to uploading the results on SkillsConnect. ATOs must continue to print the WSQ qualification and transcript generated from the e-Cert system for the trainee, without the trainee having to request for them.
